&3;:4<1:' The New Trend Monthly " edited by the New Trend agency of Beijing University " was launched in January 1919. The editing department was composed by three people "Fu Sinian "Luo Jialun and Yang Zhenshen " with Fu Sinian as the editor in chief. As a student journal "in the years when different kinds of publications appeared now and then "it became a star publication in the May fourth Period "well – known in the history and even surpassing the New Youth in the distribution numbers. But after the May Fourth Movement "the New Trend Monthly became silent "out of sight. Why& The same journal had different fate in the different periods. It seemed accidental "but it had definite laws inside. This paper probed into the Chinese intellectuals minds of that time and tried to find the relation between the social ideas and social psychology and give some enlightenments for researching social new ideas media today "by summarizing the relation between the New Trend and May fourth new ideas from the clues of historic development.
